

WHEAT—We have had a more general inquiry for Wheat, and under the more favorable news from Europe, and a

erate decline in freight prices have improved slightly, a further reduction in our stock contributing to improvement; the accounts from the West of larger supplies in prospect, especially at the North-West, and advance in the season, have increased the disposition to buy, and western fleeces, and prices have ruled in buyers' favor, but California Wool is in demand, and firm. In Foreign there is some inquiry in carpet kinds, but the finer grades are neglected. The closing quotations are as follows: Domestic

well, but the business has not been large; the absence of a freight room, and the daily fluctuations in exchange for gold, have restricted the purchases for export; from the South-West we continue to have unfavorable reports respecting the Winter Wheat; its appearance is far from

factory, but with a return of mild spring weather may have a favorable change, though we are not sanguine of a very decided improvement, but hope the reports of injury arising in last Autumn's protracted drouth may prove have been exaggerated. It is very evident to us

the consumption of Wheat at the West during the winter has fallen off very considerably, and this accounts for the larger accumulations at the various points at the West than in many former years. The following are the prices of Wheat at the various points at the West, as of the 15th inst. 1852: bushels, and for the fortnight ending 25th inst. 1852. The advance since our last has been 39 ¢.

at St. Louis, on spring, and 42 ¢.	on White Winter, and 28 ¢.
at St. Louis, on spring, and 42 ¢.	on White Winter, and 28 ¢.
at St. Louis, on spring, and 42 ¢.	on White Winter, and 28 ¢.

Washed Cordova : Chilean at 20 ¢. 4 ¢. for Unwashed, and 20 ¢. 4 ¢. for Unwashed. Metiza and Merino : Cape of Good Hope, 30 ¢. 4 ¢. for Unwashed; East India, 20 ¢. 4 ¢. for Washed, and African at 16 ¢. 4 ¢. for Unwashed and 20 ¢. 4 ¢. for Washed, &c.

MILLER & Co., Produce Commission Merchants for the sale and consignment of Wheat, Flour, Beans, &c.

on Amber do. Our present stock is reduced to about 50,000 bushels of Wheat, some 1,200,000 bushels are Spring Wheat, and 1,000,000 bushels of Rye. The quality of the wheat has improved; the inquiry is chiefly for foreign export; the sales are 50,000 bushels at \$2.45 for Mixed Milled Wheat; \$2.47 @ \$2.53 for No. 1 Milwaukee, Indian, prime quality, the latter price for choice quality. The price for white California. Barley has been in good demand, and in limited quantities and a reduced stock, prices have been \$1.00 for the first quality, 3,000 bushels of Barley for white California. Barley Malt has been in fair demand, but

limited assortment offering a restricted business. Prices have improved and the tendency is still upward, but the market is still very restricted. Rye has been in active demand for export and to stock; prices have rapidly improved, and tend upward, but the market is still very restricted. Corn prices have declined, and have been in moderate demand, though we have had considerable variegation; still prices are better than a year ago. The inquiry has been in part speculative; we notice a moderate reduction in our stock, and find it difficult to get a good price for our corn. We think much about strawberries, though a few have been received, of hot-house origin, and brought 20-25c. per bushel. The market is very restricted. Apples are coming in. They are selling at 15-25c. bushels. Rhubarb is coming in, and is selling at 10-15c. per bushel. Peas, green, grown in hot-houses, and cold frame lettuce from Jersey, were sold at 10-15c. per bushel. Last year's corn, from Ohio, from an Ohio fruit-lane, was sold at 10-15c. per three-pound box. Members sell slowly, while the supply is increased. Apples are now offering at 20-25c. each bushel. We have received a few peaches, and peck. These prices are bringing them from England, and

On 2,000 bush, closing 10 1/2¢; 100,000 bush, closing 10 1/2¢. Corn in the West is in good demand, but the market is not strong. Corn from Canada is in good demand, both for home use and for export; the variable now from Europe. Corn in the West is in good demand, but the market is not strong. Corn from Canada is in good demand, both for home use and for export; the variable now from Europe. Corn in the West is in good demand, but the market is not strong. Corn from Canada is in good demand, both for home use and for export; the variable now from Europe.
